PROJECTS

• E-Commerce Platform (Ongoing)

A fully functional platform developed using the MERN stack, integrating React for the frontend and MongoDB for database management.

• Java Web Application (Academic)

Developed a Java-based web application, focusing on backend functionality and database integration.

• MERN Web Application (Academic)

Built a MERN stack web application with React for the user interface, Express.js for server-side development, and MongoDB for data storage.

• Mobile App (Academic)

Designed and developed a mobile application using Android Studio with Kotlin, focusing on user-friendly UI and performance optimization.

• Portfolio Website

Created a personal portfolio using HTML, CSS, and Tailwind CSS to showcase skills, projects, and achievements.
